Energetic? Innovative? Passionate? Work with us and our partners (University of Warwick, Jaguar Land Rover, National Grid and many more) to deliver a skills-based curriculum in a high achieving environment.

The WMG Academy for Young Engineers opened its first academy in Coventry on Monday 8th September 2014 for up to 640 students aged 14 - 19. The second academy in North Solihull opened in September 2016 for two year groups, 10 and 12, the academy has continued to grow from its starting point with an ever increasing amount of students applying for both year 10 and year 12 alike. The academy received its first Ofsted inspection in February 2019 and was rated Good in all categories.

We are looking for a different kind of engineering teacher who wants to be at the cutting edge of teaching and learning, working differently, alongside employer partners. We are bringing the curriculum to life with an innovative approach using real life business problem-solving skills and embracing business-like learning behaviours.

The successful candidate would be able to offer a range of engineering and product design disciplines, to complement the existing engineering team who between them deliver Key Stage 4 GCSE Product Design, Art and Design, Cambridge Nationals in Product Design and Manufacturing and Design Engineering.

You will be a key member of the WMG Academy Solihull team, delivering outstanding teaching across KS4 and KS5. You will have experience of working in a school or college setting as well as a good understanding of the needs of 14-19 year old students.

The key academic sponsor of the Academy is the University of Warwick. The Solihull Academy is located adjacent to Chelmsley Wood Shopping Centre in North Solihull and boasts over £2 million of specialist equipment and ICT. Our relationship with a broad range of local, national and international business partners will allow the successful candidate to link his/her teaching to an applied, employment-led educational environment.
